MEMBER 54TH CONCRESS U.S. Recommends Pe-ru-na.

Nebraska has furnished to our National Congress some of the brightest minds hat have ever adorned that great national legislature. Men of push and fire, men of great oratorical and intellectual resources, men who have done much to shape the destinies of the great western section of our country.

Among these modern statesmen of that versatile, American type, is Hon. W. E. Andrews, of Hastings, Nebraska. Hon. Andrews was formerly Vice President of Hastings College, and established an excellent record as a promulgator of public sducation before he became a member of Congres. Speaking of Peruna, he says:

"I cheerfully recommend the preparation, Peruna, as a healthful tonic and a successful remedy for catarrh in its various forms."--- Hon. W. E. Andrews.

Hon. Thomas Cale, who was elected to Hon. C. Slemp, Congressman from Congress from Alaska, is well known on Virginia, whose home address is Big the Pacific slope, where he has resided. Stone Gap, Va., writes: Washington address is 1312 Ninth

OLD FORT CROWDED WITH PEOPLE

Aside from the Cavalry Maneuvers Signal Corps Does Some Interesting Work in Line of Wireless Telegraphy.

Never has there been such a crowd of people on the Fort Omaha military reservation as was assembled there Friday afternoon to enjoy the closing drill of the famous Second United States cavalry. Conrervative estimates place tween 10,000 and 12,000. The Florence street car line beyond Ames avenue was not able to accommodate the crowds and many people walked to the Fort on Thirtieth street.

Several special cars took out a host of the delegates to the League of American Municipalities convention, and among other distinguished guests was Governor Sheldon. who was given the honor of the governor's salute of eleven guns upon his arrival or the grounds.

The mounted drills were much the same us those of Wednesday and Thursday afternoon, the entire regiment, except Troop M. participating in the saber exercises. The fancy mounted drill by Troop M, the "Gray Horse" troop, was more elabo than that given the two preceding afternoons and included the saber exercises given at a full gallop. The intricate winding evolutions of the troop were given

The Stomach Does Not Cause Dyspensia

Neither Will It Cure It Because The Lack of Gastric Juices Prohibit Relief.

The stomach is a strong, powerful or gan, which is composed of muscles of great strength. It is filled during digestion with gastric juices which, when the stomach, extending and compressing the food, dissolve it and separate the nourishment from the waste matter. If however, these gustric juices are lacking, the stomach is not capable of digesting the food because it has not the tools with which to work successfully.

The gastric juices when in a perfect state do away with all foul odors, fermentation and decay, reduce the food to a disintegrated mess and the stomach then presses it into the intestines where another form of digestion takes place. intestines take from this mass of food all that is nourishing and give it to the blood. The wasty matter is thrown from the

If instead of nourishment the intestines Ida Brodky; recitation, Margery Beckett; receive impure deposits combined with a poisonous and imperfect gastric juice, it can be readily seen that they must turn such imperfect nourishment into the blood. The blood then being unable to give each part of the body that which it requires, ecomes impoverished and disease is spred

Stuart's Dyspepsia Tablets corrects such a condition at once. If the gastric juices are lacking and imperfect these tablets do their work just the same. Amazing Power of Explosive Letters in Presidential Contests.

INCIDENTS OF FORMER CAMPAIGNS

Recollections of the Stir Caused by the Morey Forgery in 1880 and

the Mulligan Letters in 1884. The Archbold-Foraker letters and the

blowing up and out of Oklahoma's governor serve to recall similar episodes in the campaigns of 1880 and 1884. Garfield, the republican candidate in 1880, was obliged to abandon the campaign issues for a time, and give his attention to defending himself against the attacks made upon him on acount of his alleged connection with the Credit-Mobilier scheme, the so-called salary grab, by which the salaries of members of congress were increased, and the charge that he had, while a member of congress, accepted \$5,000 to vote in favor of a bill of the Board of Public Works of Washington to pave the city with the De Golyer wood pavement. Towards the end of the campaign he had to spend much of his time in denying the authenticity of the famous

Morey letter. In 1884 James G. Blaine, the republican candidate, was forced to devote most of his stump speeches to explanations of the of representatives, but he had to go all gaze figured in the campaign—the Mulligan a full senatorial term in 1882. over the matter again when he was a pres- letters. They were not new. They were idential candidate. Moreover, he met with brought to the surface when Blaine was Boost your business with Bee Want Ads several unfortunate incidents in the course of his campaign, notably the Burchard incident, which, his friends have ever since asserted, was responsible for the loss of New York state, and his defeat. More letters turned up in the campaign of 1888 which attracted public attention. Among these were the Dudley "blocks-of-five" letter and the "Sackville-West" letter; both undoubtedly had some effect in the campaign of that year. Sensational letters and incidents have also figured in state and in city campaigns.

The Morey letter referred to above was stended to injure Garfield on the Pacific oast. In 1880, the Chinese immigration question was agitating the country. On October 21, twelve days before the election, a New York newspaper published a letter purporting to have been written by Garfield n January 23 of that year to one H. L. Morey of Lynn, Mass. The communication

appeared to be a reply to a letter written

to General Garfield for the purpose of ob

The Morey Letter.

taining his views on Chinese cheap labor. and was as follows: HOUSE OF REPRESENTATIVES, WASHINGTON, D. C., January 23, 1889. Dear Sir: Yours in relation to the Chinese problem came duly to hand. REPRESENTATIVES take it that the question of emiloyes is only a question of private and orporate economy. Individuals or companies have the right to buy labor where ney can get it the cheapest. We have a reaty with the Chinese government which could be religiously keep possible to religiously keep possible to religiously keep possible. should be religiously kept until its provisions are abrogated by the action of the general government, and I am not prepared to say that it should be abrogated until our great manufacturing interests are conserved in the matter of labor. Very truly yours.

J. A. GARFIELD.

To H. L. Morey, Employers' Union, Lynn

The letter, which was in handwriting something like Garfield's, was headed "perional and confidential," and was reproduced in newspapers throughout the country. It produced consternation in the republican ranks as it was feared that the letter whether genuine or not, would lose General Garfield the electoral votes of the Pacific states, where there was such a strong sen timent against Chinese Immigration that party allegiance was likely to be forgotten The day after the publication of the leter in New York, Garfield sent the following telegram, from his home in Mentor, O. to Marshall Jewell, chairman of the repub lican national committee: "I will not break the rule I have adopted, by making a public reply to campaign lies, but I authorise you denounce the so-called 'Morey' letter as a bold forgery, both in language and centiment. Until its publication I never heard
